Spiritual Health of Board Members

As the 1st VP-Spiritual Life, you have an excellent opportunity to encourage the spiritual growth of board members.

First and foremost, it is crucial for you to maintain your own personal spiritual health!

- Be in God's Word daily
- Pray regularly
- Maintain a godly lifestyle
- Seek counsel from the Titus II board member, when needed

Find a way to maintain your own spiritual health since we can only give out of an overflowing cup. Perhaps you can attend a Sunday School class or Bible Study outside of PWOC in order to be furthering your own spiritual journey.

Your board might like to address a particular spiritual discipline or further develop a skill. Possible ideas include:

- Together during the semester, you could all read the same book which encourages the development of a specific discipline such as prayer, stewardship, or evangelism
- Provide training and opportunities for board members to present a devotion at a PWOC meeting or Board meeting (see *Devotions* document SL-3)
- Develop an accountability plan that each board member can use during the upcoming year and if desired, offer an anonymous Spiritual Check-up (see *Spiritual Check-up* document BSS-7).
